Theydon Bois Pre-School Group

Newsletter – 29 November 2021

Last week the children had fun making marks on paper (the road), experimenting with different colour paint using various vehicles. They looked closely to find the different track marks that different vehicles make.

The children created igloo pictures by dipping wooden blocks in white paint to create an iced brick effect on their igloo templates. For those children in pre-school on that day, your child will have brought home their igloo art to show you 😊

The children were invited to play hairdressers after watching one of their teachers having their hair cut by our member of staff Ashley. The children asked questions and demonstrated what they had observed on our styling heads using various resources....

Welcome to Theydon Bois Pre School hair salon

Today the children observed one of our teachers having a haircut - they enjoyed playing hairdressers and imitated teacher Ashley using the hairdressing resources

The children asked questions and played hairdressers

Our pre-schoolers were engaged and interested, they enjoyed sharing their own experiences of who and where they have their hair cut (some have had their hair cut by Ashley and were proud to share that with the group)
